

Statement on Diversity, Equity and Inclusion

The Blood Cancer Foundation of Michigan (BCFM) recognizes that we are stronger when we reflect the diversity of not only our patient population and service community, but also our community at large. It is our intention to practice diversity, equity and inclusion in activities and practices related to hiring, training, compensation, benefits, promotions, terminations, fund raising, business dealings and community relations.

Employees and candidates for employment with CLF are considered solely based on their ability to perform the requirements of the position for which they are applying, or to which they are assigned. We recognize consideration for experience and potential for growth and invest where possible to assist in that growth as professionals, mentors and co-workers. We welcome and embrace all people seeking support during and after their blood cancer fight, and work to recognize the same level of commitment in both our leadership and program volunteers.
